O'Reilly Equipment is looking for an experienced, hard-working, and dedicated mechanic to join our team! This position includes duties such as repairing and installing snowplows, trailers, and other truck equipment. Experience is ideal, but commitment to quality and being a hard worker goes further.

Job Specifications:

- Install and make repairs of truck equipment, cab and chassis trucks, truck service bodies, dump bodies, flat beds, snowplows, and interior van packages, etc., in accordance with O'Reilly Equipment standards and procedures and customer requests.
- Modify chassis manufacturer components if necessary.
- Test installed systems to ensure they are in good working order.
- Adhere to workplace safety requirements, outlined here at O'Reilly Equipment.
- Complete your work promptly and strive to ensure efficiency and quality. Adhere to timelines set by management.
- Comply with methods, policies, procedures or protocols established by company management and directives communicated by supervisors.
- Complete other related tasks as assigned.

The Ideal Candidate Has:

- High school diploma or equivalent
- Vocational, trade, or technical school training (preferred)
- A positive and team-oriented personality
- Knowledge/Experience in electrical, hydraulic, and welding work
- Shows up on time ready to work
- Knowledge of vehicle mechanics
- Your own toolbox. Your toolbox is expected to include most of or all of the following: [O'Reilly Equipment Mechanic Tool List](#)

Perks + Benefits:

- Competitive Pay
- Retirement Plan (401k)
- Health Insurance
- Paid Time Off + Paid Holidays
- Free Lunch on Paydays
- Branded Merchandise
